Articles

The International Forensic Summit: Vision and mission
S.C. Leung 2–5

The forensic analysis of soils and sediment taken from the cast of a footprint
P.A. Bull, A. Parker and R.M. Morgan 6–12

Age estimation methods using anthropological parameters on human teeth–(A0736)
H. Brkic, M. Milicevic and M. Petrovecki 13–16

On statistical analysis of forensic DNA: Theory, methods and computer programs
W.K. Fung, Y.-Q. Hu and Y.-K. Chung 17–23

Will genetic polymorphism of tetranucleotide sequences help in the diagnostics of major psychiatric disorders?
R. Jacewicz, S. Szram, P. Gałecki and J. Berent 24–27

Genetic diversity at 15 STR loci in two tribal populations in Southern China
C. Liu, C. Liu and H. Wang 28–32

The use of self-organising maps for anomalous behaviour detection in a digital investigation
B.K.L. Fei, J.H.P. Eloff, M.S. Olivier and H.S. Venter 33–37

Concepts and possibilities in forensic intelligence
C. Bell 38–43

Media analyses based on Microsoft® NTFS file ownership
F.C. Kerr 44–48

STR data for the 15 loci from three minority populations in Guangxi municipality in South China
C. Liu, C. Liu and H. Wang 49–52

Mutations at 17 STR loci in Chinese population
J. Yan, Y. Liu, H. Tang, Q. Zhang, Z. Huo, S. Hu and J. Yu 53–54

Allele frequencies and haplotypes of 12 Y-STR loci for the local Chinese population in Hong Kong
S.M. Yeung, L.M. Wong, B.K.K. Cheung and K.Y. To 55–63

Four X-chromosomal STRs and their allele frequencies in a Chinese population
W.M. Tang and K.Y. To 64–65

Application of HLA–DRB1 genotyping by oligonucleotide micro-array technology in forensic medicine
B. Jiang, Y. Li, H. Wu, X. He, C. Li, L. Li, R. Tang, Y. Xie and Y. Mao 66–73

SNP genotyping by multiplex amplification and microarrays assay for forensic application
L. Li, C.-T. Li, R.-Y. Li, Y. Liu, Y. Lin, T.-Z. Que, M.-Q. Sun and Y. Li 74–79

A survey of buprenorphine related deaths in Singapore
S.H. Lai, Y.J. Yao and D.S.T. Lo 80–86

Impurity profiling of ecstasy tablets seized in Hong Kong by gas chromatography–mass spectrometry
J.Y.K. Cheng, M.F. Chan, T.W. Chan and M.Y. Hung 87–94

(Contents continued on page 1)

08021

(Contents continued from outside back cover)

A high-throughput urinalysis of abused drugs based on a SPE-LC–MS/MS method coupled with an in-house developed post-analysis data treatment system
W.-C. Cheng, T.-S. Yau, M.-K. Wong, L.-P. Chan and V.K.-K. Mok 95–107
Solid-phase extraction and analysis of 20 antidepressant drugs in human plasma by LC/MS with SSI method
T. Shinozuka, M. Terada and E. Tanaka 108–112
Artifacts in the GC–MS profiling of underivatized methamphetamine hydrochloride
T.-L. Li, Y.-S. Giang, J.-F. Hsu, S.-G. Cheng, R.H. Liu and S.-M. Wang 113–120
Analytical approach to determine ticlopidine in post-mortem blood
M. Barroso, E. Gallardo, C. Margalho, P. Monsanto and D.N. Vieira 121–125
The use of serial measurement of plasma cholinesterase in the management of acute poisoning with organophosphates and carbamates
I.M. Abdullat, A.H. Battah and K.A. Hadidi 126–130
Hair analysis for ketamine and its metabolites
P. Xiang, M. Shen and X. Zhuo 131–134
Determination of cannabinoids in biological samples using a new solid phase micro-extraction membrane and liquid chromatography–mass spectrometry
R. Yang and W. Xie 135–139
Dating the writing age of black roller and gel inks by gas chromatography and UV–vis spectrophotometer
Y. Xu, J. Wang and L. Yao 140–143
Using morphometric and analytical techniques to characterize elephant ivory
R.R. Singh, S.P. Goyal, P.P. Khanna, P.K. Mukherjee and R. Sukumar 144–151
The role of forensic geoscience in wildlife crime detection
R.M. Morgan, P. Wiltshire, A. Parker and P.A. Bull 152–162
Comparison between computed tomography (CT) and autopsy findings in cases of abdominal injury and disease
K. Yamazaki, S. Shiotani, N. Ohashi, M. Doi, K. Kikuchi, C. Nagata and K. Honda 163–166
Application of ultrasonography to postmortem examination. Diagnosis of pericardial tamponade
S. Uchigasaki, L. Oesterhelweg, J.P. Sperhake, K. Püschel and S. Oshida 167–169
Myocardial Cx43 expression in the cases of sudden death due to dilated cardiomyopathy
X. Chen and Y. Zhang 170–173
Could NF-κB and caspase-3 be markers for estimation of post-interval of human traumatic brain injury?
L. Tao, X. Chen, Z. Qin and S. Bian 174–177
Fibronectin EIIIA splicing variant: A useful contribution to forensic wounding interval estimation
N. Liu, Y. Chen and X. Huang 178–182
Triad-related homicides in Hong Kong
K.W. Lee, R.G. Broadhurst and P.S.L. Beh 183–190
Scent identification evidence in jurisdiction (drawing on the example of judicial practice in Poland)
T. Tomaszewski and P. Girdwoyn 191–195
